PROFESSIONAL SUMMARY

Full Stack Developer with 1 + Years of experience in PHP, Laravel, REST APIs, React Native, Python, MySQL, and PostgreSQL. Experienced in developing and maintaining web and mobile applications with authentication, API integration, geofencing, role-based access control, and database management. Strong understanding of modern frontend technologies, including React, JavaScript, TypeScript, Tailwind CSS, and Next.js, with practical exposure to Django. Skilled in building scalable applications and integrating frontend, backend, and database components to deliver reliable software solutions.

EXPERIENCE

Full Stack Developer

2025/08 – Present | Chennai, Tamil Nadu

Azotos Software Technologies Pvt Ltd

- Developed and maintained scalable web applications using **PHP, Laravel, Livewire, Tailwind CSS, and PostgreSQL**, including HR, payroll, attendance, leave, fleet, chat, and helpdesk modules.
- Built secure **RESTful APIs** with authentication, authorization, RBAC, OTP verification, API integrations, and third-party location services including **geofencing and Live Location Sharing**.
- Optimized **database queries, responsive UI, reports, file uploads, and application integrations**, while collaborating with mobile/frontend teams to troubleshoot and deliver reliable solutions.

SOFTWARE DEVELOPER INTERNSHIP

ITTRIDENT Software Development

2025/05 – 2025/07 | Chennai, Tamil Nadu

Full Stack Developer Intern

- Developed responsive web applications using **Next.js, React, Python, and MySQL**, focusing on clean UI and efficient functionality.
- Implemented **routing, nested routing, API integration, data fetching, and database connectivity** in real-time projects.

KEY PROJECTS

HRM Veremax — SaaS Application Management

Role: Full Stack Laravel Developer

Technologies Used: PHP, Laravel 13, Livewire 4, Volt, Tailwind CSS, MySQL, Sanctum, Laratrust

Project Overview:

- Developed **HRMS and Fleet Management modules** covering employee management, attendance, payroll, leave, remote work, vehicles, driver assignments, and maintenance tracking.
- Implemented **geofencing, live location tracking, RBAC, and dynamic permissions** for different user roles, including Super Admin, HR, Managers, and Employees.
- Built secure **REST APIs using Laravel Sanctum** for Flutter integration and developed chat, helpdesk/ticketing, PDF payslips, and Excel/CSV reporting features.

Salon Management System

Role: Full-Stack Developer

Technologies Used: PHP, Laravel, Livewire, PostgreSQL, Eloquent ORM, Git

Project Overview:

- Developed a multi-tenant salon system for **wallet, billing, expenses, services, products, and employee management**.
- Implemented **secure wallet transactions, audit, Invoice generation for customer wallets** using Laravel.
- Created **Livewire reports and graphs** for sales, expenses, ledger, stylist performance, and tips, with **CSV export** functionality.

School Job Application & Recruitment App

Role: React Native Developer

Technologies Used: React Native, JavaScript, REST APIs, OTP, Bearer Token, Refresh Token

Project Overview:

- Developed a **mobile recruitment platform** for job search, filtering, applications, job tracking, and user profile management.
- Implemented **OTP-based authentication** with secure Bearer Token and Refresh Token mechanisms.
- Integrated and managed **REST APIs and authentication state** to ensure secure and reliable application communication.

Personal Projects

- **Full-Stack E-Commerce Website** — Built a responsive e-commerce application using **Python, Django, MySQL, HTML, CSS, and JavaScript**, with authentication, product listings, cart, and order management.
- **Video Transcription & Translation System** — Developed a Python-based application using **Whisper AI and Deep Translator** to generate English and Tamil subtitles from video audio.
- **Responsive Web Design** — Created a responsive product website using **HTML, CSS, and JavaScript**, optimized for different screen sizes.

TECHNICAL SKILLS

- **Backend:** PHP, Laravel, Python, Django (Basics), REST APIs
- **Frontend:** HTML, CSS, JavaScript, React, TypeScript, Tailwind CSS
- **Database:** MySQL, PostgreSQL (PgSQL)
- **Mobile:** React Native
- **Tools & Technologies:** Laravel Sanctum, Livewire, Google Maps API, Geofencing, Bearer Token, Refresh Token, OTP Verification

COURSE & EDUCATION

Python Full Stack Development

Besant Technologies

Aug 2024 – Mar 2025 | Chennai

B.E Computer Science and Engineering

SBM College of Engineering and Technology

2019 – 2023 | Dindigul

HSS

DKG Boys Higher Secondary School

2018 – 2019 | Natham, Dindigul
